EXPERIENCE

Sung il. Philippines Corporation (Globe Contractor) Maintenance Team	June 2023 - August 2023
---	--------------------------------

During my On-the-Job Training at Sung Il Philippines Corporation, a contractor for Globe, I gained valuable experience with the Maintenance Team. My responsibilities included learning the basic fundamentals of AutoCAD for drafting and designing telecommunications infrastructure. I participated in site visits as a site engineer, where I assessed project locations and ensured compliance with technical and safety standards. Additionally, I developed hands-on skills in splicing various types of fiber optic cables, which are crucial for telecommunication systems. Through this experience, I gained a comprehensive understanding of telecommunications infrastructure, particularly focusing on fiber optics and their maintenance.

BCMC (Basc Military Course)	May 2021 - June 2021
I successfully completed a basic citizen military course to join the reserve force of the Philippine Navy (Marines). This intensive program provided me with foundational military training, including physical conditioning, basic combat tactics, and discipline. Through this experience, I developed skills in leadership, teamwork, and resilience. The training also instilled a deep sense of duty and commitment to serving my country, preparing me to support national defense initiatives as part of the Marine reserve force.
